01 Corporate Profile

Corporate Profile

Our Company

NSL, and its group of companies, is a leading industrial group in the Asia Pacific. Its four main businesses – Construction Products, Environmental Services, Engineering and Chemicals – are market leaders in their respective industries.

Spearheading the Environmental Services business of NSL Ltd is the NSL OilChem Group of Companies ("NSL OilChem"). Since its incorporation in 1997, the Environmental Services group has expanded its activities to encompass a wide range of services within the oil-and-chemical industry, including:

- Management of oil-and-chemical wastes;
- Logistics services for oil-and-chemicals;
- Trading & distribution of fuels and petroleum products; and
- Treatment of oil-and-chemical wastes via environmentally-friendly technologies.

As the people who handle potentially toxic and hazardous materials, we are fully aware of our heavy responsibilities for protecting the environment as well as the safety of the people involved.

We place a strong emphasis on corporate integrity, quality assurance, and safety.

Vision

To be a Preferred Partner in Creating a Sustainable Environment by Advancing Oil-and-Chemical Management through Innovations and Technology.

Mission

To provide Hassle-Free, Safe, Efficient and Cost-Effective Solutions to Value-Add to our Stakeholders in Oil-and-Chemical Management.

Our Values

Integrity

Being honest, consistent and transparent in all dealings and relationships with our stakeholders.

Innovation

Can-do attitude in embracing change and actively seek better ideas and methods for continuous improvement.

Caring

Be mindful of the impact of our activities on the safety, health and environment of our employees and society.

OilChem Waste Management

NSL OilChem Waste Management Pte Ltd ("NOCWM") was established in 1997 as Singapore's first onshore plant for the treatment, recycling and disposal of oily waste. Today, it has become a full-fledged waste management company and service provider of choice.

At NOCWM, we are dedicated to providing customers with a one-stop, **hassle-free** service. Our specialist capabilities include the collection, management and disposal of marine waste, oily/ toxic waste, and industrial waste; as well as the cleaning and maintenance of oil interceptors, grease traps and storage tanks.

1. Marine Waste

We are an MPA Approved MARPOL Annex I and Annex V facility. Our services in this area include:

- De-slopping or collection of slop oil, bilge oil, sludge, and other oily waste;
- Collection of CHT water / grey water / waste water; and
- Collection and disposal of garbage.

2. Oily Waste

We own and operate **Singapore's largest used lubricant re-refining plant**, an oily slop / waste water treatment plant, and an environmentally-friendly waste-to-energy incinerator capable of handling toxic and hazardous wastes. This expertise includes handling used oil, contaminated oil, and oily waste (including, but not limited to oily water; oily sludge; oil bottles, tins, pails, drums and other containers; oil filters; oily rags, wipes, PPE and other absorbent materials; and containers contaminated with oil, ink, or paint).

3. Industrial Waste

We operate our own facilities that are capable of treating, disposing and recycling a wide range of toxic industrial waste, including:

- Industrial solvents (Halogenated & Non-halogenated);
- Acids, alkalis, plating and other industrial effluents;
- Industrial waste water;
- Laboratory wastes;
- Wastes from the production / formulation of inks, dyes, pigments, paints, lacquers, and varnish;
- Used / contaminated / expired oil, engine oil, hydraulic oil, industrial and marine lubricants and greases;
- Contaminated fuels, diesel, kerosene and other petroleum products; and
- Other industrial and chemical waste.

4. Cleaning and Maintenance of Oil Interceptors, Grease Traps and Storage Tanks

We take pride in ensuring thorough cleanliness of every oil interceptor or grease trap that is maintained by us. Our customers can thus rest assured that their oil interceptors, grease traps or storage tanks will work effectively. More importantly, the collected waste will be properly treated and disposed.

We de-slop 90% of the vessels at PSA's wharves.

Our Specialisation

OilChem Logistics Services

At NSL OilChem Logistics Pte Ltd, we believe that whether a material poses a hazard depends greatly on how it is handled.

With a multitude of experience in the handling of toxic and hazardous materials, our teams of professionally-trained and licensed staff are ever ready to provide handling, transportation and management services for your toxic and hazardous materials.

For every project we handle, a dedicated account executive is assigned to assist in determining the customer's handling or transportation requirements. This ensures that the best resources are allocated to handle the job, without ever compromising on **safety and reliability**.

Our comprehensive fleet of customised vehicles licensed by the Singapore Civil Defence Force (SCDF) for safe handling and transportation of hazardous materials include:

- ISO-tanks;
- oil tank trucks;
- vacuum trucks;
- hook-lift trucks; and
- crane lorries.

Our aim is to continually provide our customers with hassle-free management of oil-and-chemical, toxic and hazardous materials founded on seamless processes.

The OilChem Way; Hazardous or not, depends on how it is handled.

Our Specialisation

OilChem Trading

NSL OilChem Trading Pte Ltd ("NOCT") is an established distributor of fuels and lubricants, renowned for **reliability and business integrity**. We are a premier supplier authorised by the following oil majors: Shell, Chevron and Singapore Petroleum Company (SPC).

At NOCT, we make sourcing and purchasing fuels easy, through competitive and transparent pricing. With our own fleet of trucks and tankers, arranging supply logistics island-wide – whether in bulk or small quantity top-ups – is never more convenient.

We consider work safety and environmental and health issues related to the transportation, storage and handling of petroleum products as our top priority. As such, our sales engineers are ever ready to offer their assistance.

NOCT also offers products that deliver great performance at even greater value. Manufactured under strict quality controls and meeting stringent trade and OEM specifications, our propriety products include automotive engine oil, motorcycle oil, hydraulic oil, gear oil, marine lubricants, and other specialties and greases. We are proud to present these products under the proprietary brands of NuBase, Liquid Gold and Cheston.

Additionally, in the case of unique requirements for specific applications, our lubricant specialists are available to provide consultancy and advice.

Your reliable supplier for fuels and lubricants.

OilChem Green Energy

NSL OilChem Green Energy Pte Ltd ("NOCGE") was established in 2005 to explore and utilise the latest technologies for the betterment of the environment.

The company is managed by a team of dedicated staff committed to promoting an environmentally-friendly workplace that aspires towards creating a zero-waste environment.

We own and operate:

- **Singapore's largest used lubricant re-refining plant**
Not only are we the market leader in the re-refining of used lubricating oil, but also the owner and operator of the first and largest used lubricant re-refining plant in Singapore. Our proprietary thermal chemical process recovers consistent and high quality base oil.

- **Singapore's largest onshore marine sloop oil recovery plant**
Our advanced liquid separation technology allows us to recover fuel from marine slops and sludge regardless of the oil content in the waste material.
- **Leading age waste-to-energy incinerator**
Industrial wastes that are hazardous to health must be disposed through incineration. Our state-of-the-art incinerator system is equipped with the capability to handle solids, slurry and liquid waste. In order to reduce the global carbon footprint, we have designed our incinerator as a co-gen plant.

State-of-the-art technologies, for the betterment of the environment.

Going Green

At NSL OilChem, we believe that resource conservation and delivering cost-effective, sustainable and environmentally-friendly solutions are essential to the betterment of the environment.

Hence, we strive to always incorporate environmental and social considerations in our business decisions, and comply with regulations and safety requirements from the authorities.

We are mindful of:

- using energy, land, water and other natural resources efficiently;
- controlling undesirable emissions;
- preserving habitat, biodiversity and ecosystems;
- managing and mitigating environmental risks; and
- pursuing continuous advancements in environmental protection.

Corporate Responsibility

We Care

NSL OilChem is committed to **caring for our community and environment**. We focus on the effective management and handling of oil-and-chemicals to ensure a safe, clean and healthy environment. We continually:

- monitor and improve our processes;
- support initiatives on resource conservation and pollution reduction;
- actively reduce the potential negative environmental impacts associated with our operations; and
- remind ourselves of our partners' requirements for the quality services that set us apart.

NSL OilChem proactively adopts and promotes industry best practices. Our work is underlined by the need for **integrity and accountability** to all our stakeholders.

Workplace safety is paramount at NSL OilChem. We strongly believe that a safe and healthy work environment is an undeniable right of our employees. We continually review our engineering designs and work processes to enhance safety practices, and are also committed to constantly train and promote the culture and value of safety among our staff.

NSL OilChem is committed to an Integrated Management System (IMS) that is certified to the following international standards:

- ISO 14001
- OHSAS 18001
- SS 506 Part 3

which underlines our commitment to create a sustainable environment by advancing oil-and-chemical management via seamless processes. NSL OilChem is also a recognized bizSAFE STAR company.
